

1. Project Checkpoints

a. Oct 23

- i. I will have researched what Javascript I will need to implement a browser extension.
 1. I have read about how to implement a browser extension.
 2. I still have lots to learn about Javascript.
- ii. Create manifest.json file
 1. I have created the manifest.json file
- iii. Create basic Javascript file
 1. I have created a basic Javascript file
- iv. Given a user, when the extension is clicked, then the user can select from a list of provided backgrounded colors.
 1. This is the part where I am at currently. It doesn't work where you click on the color and the background color changes. This is where most of my work going forward will be spent.
